30'	210	275	340	400	455	550	725	1025

This price list is a guideline for #21 twisted nylon screens for indoor or outdoor use. Twine breaking strength is 200 lbs. These nets are hung on 5/32(3/16) vinyl covered galvanized aircraft cable which has a breaking strength of 2600 lbs. Corner hardware can be a variety of snaps or shackles. Standard is a 1/4 inch quick link. The common useful life of this net would be dependant upon conditions of your climate especially sunlight intensity. In the northern climate of the US we would expect a 5-7year life. Heavily treated netting is available for extreme outdoor use; this could extend the useful life to 10 yrs +. Please call for quotes.
